

CARGO AND STOCK THROUGHPUT

Cargo and stock throughput coverages provides broad and flexible coverage to the entire cannabis supply chain, from vertically integrated operations to cannabis transporters. Stock throughput provides coverage for cannabis inventory, finished stock, work in progress, while in transit and while in storage. Our broad named insured and interest wording provide coverage to the insured's goods and those goods in their care custody and control. Our program can support up to \$2,000,000 per any one conveyance and up to \$25,000,000 per any one named location.

Cargo and stock throughput provides coverage against all risks of physical loss or damage subject to Institute Cargo Clauses (A). Our coverage has the flexibility to cover the insured's goods on a primary basis or while being transported by a 3rd party on a contingent basis. Coverage is highly customizable and can be tailored to the insured's needs.

AVAILABILITY

All legal Cannabis states.

HIGHLIGHTS OF COVERAGE FORMS

- Selling price basis of valuation
- Broader coverage than MTC wording
- CAT coverage: wind, flood and earthquake
- Broad named insured and interest wording
